I love record-breaking performances, especially when they are against interstate teams...or Collingwood. Geelong's third quarter performance was their equal best of all time (11.7). This equalled their previous best third-quarter performance which was in Round 2, 1989 against West Coast. However, their best quarter ever was in Round 7, 1992 against Brisbane Bears (14.3) where they amassed an astounding final score of 37.17 239 vs Brisbane's 11.9 75). Phfft...puny interstate teams.

But even Geelong's best ever performance has nothing on South Melbourne's from Round 12, 1912 where the progressive score line was:

South Melbourne	2.5	6.7	12.11	29.15	189
St Kilda	0.0	2.2	2.6	2.6	18

meaning South Melbourne piled on 17.4 against 0.0 in a single quarter!

Our tipping competition also sees a record-breaking performance. 6 people managed 7 correct tips this week but they were all beaten by our first perfect-8 for the 2010 season care of Josh. This means that currently 5 different people have entries into the second chance draw so things are working out fairly well so far.
